Canby Livability Day Proclamation – Mayor Hodson read a proclamation proclaiming the last Sunday in June as Canby Liability Day and presented it to Bob Tice.

Mr. Tice said this was an effort to clean up the city before the 4th of July activities. There were several projects and anyone interested in participating on June 25 could visit their website and sign up for a project at www.canbylivability.org.

William Alexy from Scout Troop 396 said he was working on his communications merit badge.

Presentation on Canby Fire District's Strategic Plan – Fire Chief Jim Davis introduced staff in attendance and John Campbell from Campbell & Associates. In 2015 the Fire District approved their first Strategic Plan and was now updating it for 2017. It was their roadmap for the next three years.

Matt Dale, Division Chief, gave a PowerPoint presentation. He listed the names of the Board of Directors, mission statement, district response zones, yearly alarm volume, 2016 incident count by zone, 2016 major incident types, 2016 activity details, 2016 ground ambulance transports, types of EMS responses, and 2016 alarms by day of the week and by hour.

Mr. Campbell highlighted some of the specifics from the plan. He explained the difference between leadership and management elements as well as the difference between strategies and goals. In 2015 the Fire District committed to do the preparation necessary to lower their ISO rating and the rating had significantly been lowered. They had also committed to better response time, especially for multiple call situations, and they had accomplished that as well.

Division Chief Dale discussed ISO cost savings examples, response time goals, and other major

accomplishments of the 2015 plan. He then discussed the goals of the 2017 plan. They were: improvements to medical/life safety and community health, fire attack/response results, community partnerships, member cultural environment, and fiscal predictability, stability, and efficiency.

Mayor Hodson said the decrease in response time was impressive. He asked how the call volume compared to other fire districts. Division Chief Dale explained how Canby Fire District was one of the busiest districts in the area. About 30% of the calls were simultaneous and some changes had been made to the dispatch of apparatus in order to reduce response times. They wanted a future north side station to increase effective response times, especially due to delays from the train. He explained how they were planning to increase the rural water supply by making more connections to the infrastructure.

Fire Chief Davis said they enjoyed the partnership they had with the City and Canby Police Department.

Rick Robinson, City Administrator, also appreciated the partnership, especially relative to the Emergency Operations Center.
