

# Respect

## Your Toilet and City Sewer System

The City Sewer System and Wastewater Treatment Plant are designed to handle human waste and paper that disintegrates in a rapid manner.

**THAT IS ALL, NOTHING ELSE.**

Flushing “Non-Flushable” items down your toilet creates Back Ups in sewer lines along with equipment failure at the Lift Stations and the Wastewater Treatment Plant. **This could lead to increased Sewer Rates and/or private expenses.**

## What can you do to help eliminate Sewer Back Ups

**BE AWARE OF WHAT IS BEING FLUSHED DOWN YOUR TOILET.**

### ONLY FLUSHABLE ITEMS:

- ✓ *Human Waste*
- ✓ *Toilet Paper*

**Do your part to keep the environment clean.**

### DO NOT FLUSH THESE ITEMS:

- ✓ *Any Product Labeled “Flushable”*
  - *Baby Wipes/Diapers*
  - *Any Moist Wipes/Facial Tissue*
- ✓ *Hygiene Products*
  - *Feminine Care Products*
  - *Dental Floss*
  - *Condoms*
- ✓ *Cleaning Products*
  - *Cloth Items*
  - *Scrub Pads*
  - *Swiffer-like products*
  - *Napkins*
- ✓ *Health Products*
  - *Medications*
  - *Vitamins*
- ✓ *Packaging*
  - *Paper or Plastic Wrappers*
