

RESOLUTION NO. URR 12-003

A RESOLUTION APPROVING AN AGREEMENT FOR ENGINEERING SERVICES WITH CURRAN-McLEOD, INC. FOR IMPROVEMENTS OF SEQUOIA PARKWAY, STAGE 6, IN THE CANBY PIONEER INDUSTRIAL PARK

WHEREAS, the City, through its Canby Urban Renewal Agency, believes that the continued and immediate development of properties within and adjacent to the Canby Pioneer Industrial Park, also known as the City of Canby Logging Road Industrial Park, ("Industrial Park") is important and essential for the effective and balanced growth of the City, and

WHEREAS, the Agency believes it is important to the development of such properties that the design and approvals for an extension of approximately 2,000 feet of Sequoia Parkway from its current southerly termination to a new connection with SE 13th Avenue, should be completed and secured as soon as possible ("Project"), and

WHEREAS, Curran-McLeod, Inc. as the City's appointed Engineer of Record, has been actively involved in the planning, design and construction administration of all phases of the Industrial Park; and has proposed to provide the design and construction engineering services for the Project; and

WHEREAS, The Agency and Curran-McLeod, Inc. have agreed to a scope of services and contract form, with a maximum fee of \$226,818 for design phase services and \$103,496 for construction phase services;

NOW THEREFORE, IT IS HEREBY RESOLVED by the Canby Urban Renewal Agency that it is in the best interests of the Agency and the citizens of Canby to complete the engineering efforts for the completion of Sequoia Parkway Stage 6 in the Canby Pioneer Industrial Park; and

IT IS FURTHER RESOLVED by the Canby Urban Renewal Agency that the Director of the Agency is authorized and directed to execute a contract for the engineering services on behalf of the Agency, in the form attached to this Resolution.

This Resolution shall take effect on March 14th, 2012.

ADOPTED this 14th day of March, 2012, by the Canby Urban Renewal Agency.

Richard Ares
Chair, Canby Urban Renewal Agency

ATTEST:

Sue Ryan
Deputy City Recorder

**CANBY URBAN RENEWAL AGENCY
SEQUOIA PARKWAY STAGE 6
AGREEMENT FOR ENGINEERING SERVICES**

This Agreement is made this 14th day of March 2012, by and between the **CITY OF CANBY** acting through the **CANBY URBAN RENEWAL AGENCY** who is hereafter referred to as the **OWNER**, and **CURRAN-McLEOD, INC. Consulting Engineers**, Portland, Oregon, hereafter referred to as the **ENGINEER**.

The **OWNER** intends to make improvements to extend Sequoia Parkway from its current southern terminus to SE 13th Avenue, including a grade separated railroad crossing, and for which the **ENGINEER** agrees to perform the various professional engineering services for the design and construction of said improvements.

WITNESSETH

That for and in consideration of the mutual covenants and promises between the parties hereto, it is hereby agreed:

SECTION A - ENGINEERING SERVICES

The **ENGINEER** shall furnish engineering services to accomplish the work identified above and as more specifically identified in a Memorandum dated January 11, 2012 to the Canby Urban Renewal Agency RE: SEQUOIA PARKWAY CONNECTION TO SE 13th AVE., which is incorporated by reference, and the tasks as further defined on the spreadsheets attached as Exhibit "A", including the following:

1. The **ENGINEER** will attend conferences with the **OWNER**, representatives of the State of Oregon, or other interested parties as may be required for completion of the work previously described.
2. After the **OWNER** authorizes the **ENGINEER** to proceed, the **ENGINEER** will perform the necessary alignment determination, accomplish the detailed design of the projects, prepare construction Drawings, Specifications and Contract Documents, and prepare a final cost estimate based on the final design. It is also understood that unless identified in the detailed work scope, if additional subsurface explorations are required, the **ENGINEER** will furnish coordination of said explorations without additional charge, but the costs incident to such explorations shall be paid for by the **OWNER** as set out in Section D hereof.

Statements of probable construction costs and detailed cost estimates prepared by the **ENGINEER** represent his best judgement as a design professional familiar with the Construction Industry. It is recognized, however, that neither the **ENGINEER** nor the **OWNER** has any control over the cost of labor, materials or equipment, over the Contractor's method of determining bid prices, or over competitive bidding or market conditions. Accordingly the **ENGINEER** cannot and does not guarantee that bids will not vary from any statement of probable construction cost or other cost estimate prepared by the **ENGINEER**.

EXHIBIT 'A'

3. The Contract Documents furnished by the ENGINEER under Section A-2 shall include the State of Oregon Prevailing Wage Rates or the Federal Davis Bacon Prevailing Wage Rates as applicable, and OWNER, funding agency, and state requirements as appropriate.
4. Prior to the advertisement for bids, the ENGINEER will provide for each Construction Contract, not to exceed 10 copies of detailed Drawings, Specifications, and Contract Documents for use by the OWNER, and for appropriate Federal, State, and local agencies from whom approval of the project must be obtained. The cost of such drawings, Specifications, and Contract Documents shall be included in the basic compensation paid to the ENGINEER. The OWNER shall pay the cost of all permits and review fees directly as provided in Section F-2 of this Agreement.
5. The drawings prepared by the ENGINEER under the provisions of Section A-2 above shall be in sufficient detail to permit the actual location of the proposed improvements on the ground. The ENGINEER shall prepare and furnish to the OWNER, map(s) showing the general location of needed land to be acquired. If identified in the work scope, the ENGINEER shall also prepare all surveys, property plats, property descriptions, and required document to assist the OWNER in negotiations for land rights.
6. The ENGINEER will furnish additional copies of the Drawings, Specifications and Contract Documents as required by prospective bidders, materials suppliers, and other interested parties, but may charge them for the reasonable cost of such copies. Upon award of each contract, the ENGINEER will furnish to the OWNER three sets of the Drawings, Specifications and Contract Documents for execution. The cost of these sets shall be included in the basic compensation paid to the ENGINEER. Drawings and Specifications are works made for hire and are the property of the OWNER whether the project for which they are made is executed or not. Whereas the OWNER holds ownership of the products, the ENGINEER retains the copyright to the material.
7. The ENGINEER will require prospective contractors to file an approved Pre-qualification Form with the OWNER or the Oregon Department of Transportation, and will require a Bid Bond not to exceed 10% in the Bidding Documents to secure the Bid.
8. The ENGINEER will attend the bid opening and tabulate the bid proposals, make an analysis of the bids, make recommendations for awarding contracts for construction.
9. The ENGINEER will assist in the Preconstruction Conference, and will review and approve, for conformance with the design concept, any necessary shop and working drawings furnished by Contractors. The ENGINEER will require the Contractor to obtain a City of Canby business license. ENGINEER shall obtain or maintain a City of Canby Business license.
10. The ENGINEER will interpret the drawings and specifications to protect the OWNER against defects and deficiencies in construction on the part of the Contractor. The ENGINEER will not, however, guarantee the performance of any Contractor. Planning and design of the project and construction engineering services shall be accomplished with due diligence and in conformance with accepted industry standards of the practice of professional engineering.
11. The ENGINEER will provide general engineering review of the work of the Contractor(s) as construction progresses to assure conformance with the design concept.

EXHIBIT 'A'

12. The ENGINEER will establish baselines and grades for locating the work together with a suitable number of bench marks adjacent to the work as shown in the Contract Documents.
13. The ENGINEER, as representative of the OWNER during the construction phase, shall advise and consult with the OWNER and all of the OWNER'S instructions to the Contractor shall be issued through the ENGINEER. The ENGINEER shall have the authority to act on behalf of the OWNER to the extent provided in this Agreement.
14. Unless otherwise requested by the OWNER in writing, the ENGINEER will not provide Resident Construction Inspection. The ENGINEER'S undertaking construction inspection hereunder shall not relieve the Contractor of Contractor's obligation to perform the work in conformity with the Drawings and Specifications and in a workmanlike manner; shall not make the ENGINEER an insurer of the Contractor's performance; and shall not impose upon the ENGINEER any obligation to see that the work is performed in a safe manner.
15. The ENGINEER will review the Contractor's applications for progress and final payment and, when approved, submit same to the OWNER for payment.
16. The ENGINEER will prepare and review necessary contract Change Orders on a timely basis for consideration of approval by the OWNER.
17. The ENGINEER and a representative of the OWNER will make an inspection of the project or project element to determine the status of completion. The ENGINEER may issue a Certificate of Substantial Completion consistent with the General Conditions of the Construction Contract Documents.
18. The ENGINEER will provide the OWNER with one set of reproducible record drawings and two sets of prints at no additional cost to the OWNER. Such drawings will be based upon construction records provided by the Contractor during construction, as specifically required in the Construction Contract, and reviewed by the ENGINEER, and from the ENGINEER'S construction data.
19. If State statutes require notices and advertisements of final payment, the ENGINEER shall assist in their preparation.
20. The ENGINEER will be available for site visits to furnish engineering services and consultations necessary to correct unforeseen project operation difficulties for a period of one year after the date of Statement of Substantial Completion of the facility. The ENGINEER will assist the OWNER in performing a review of the project during the 11th month after the date of initiation of the 12 month warranty period.

SECTION B - COMPENSATION FOR ENGINEERING SERVICES

1. The OWNER shall compensate the ENGINEER for services in accordance with the following schedule:

Preliminary and Design Phase Engineering (Design Services):

- Two Hundred Twenty Six Thousand Eight Hundred Eighteen and No/100 Dollars (\$226,818.00)

Construction Phase Engineering (Construction Engineering and Construction Inspection):

- One Hundred Three Thousand four Hundred Ninety Six and No/100 Dollars (\$103,496.00)

2. The compensation for the above Engineering Services shall be as follows:
 - a. Design Services shall include items A-1 through A-5.
 - b. Billings shall be submitted monthly by the ENGINEER for Design Services during the previous month. Payments shall be made for these billings within 30 days. Billings shall be based on percent of completion for Design Services. The ENGINEER will provide a status report with the billing as requested.
 - c. Construction Engineering Services and Construction Inspection shall include items A-6 through A-20 and shall be billed by the ENGINEER on an hourly basis. The total shall not exceed the budget figures under Section B.1 above without the express written authorization of the OWNER.
 - d. Where hourly rates are used, they shall be in accordance with the Standard Hourly Rate Schedule, attached herewith and referenced as Exhibit "B".
3. The compensation figures shown above shall not be exceeded except by express written authorization of the OWNER.

SECTION C - RESIDENT CONSTRUCTION INSPECTION

If the OWNER requests the ENGINEER to provide Resident Construction Inspection, the ENGINEER will, prior to the Preconstruction Conference, submit a resume of the Resident Inspector's qualifications, anticipated duties and responsibilities for approval by the OWNER. The OWNER agrees to pay the ENGINEER for such services in accordance with the "Inspector" rate schedule set out in Exhibit B. The ENGINEER will render to OWNER for such services performed hereunder during such period, the same to be due and payable by the OWNER to the ENGINEER on or before the 10th day of the following period. A separate agreement shall be negotiated for Resident Construction Inspections Services setting out estimated hours required and maximum estimated fees and charges.

SECTION D - ADDITIONAL ENGINEERING SERVICES

In addition to the Engineering Services described in Section A above, the following services may be provided upon written authorization of the owner, and will be billed as additional services:

1. Financial feasibility or other special studies.
2. Record boundary surveys or other similar surveys, excepting surveys required to locate the construction project.
3. Laboratory tests, borings, specialized geological, soil, hydraulic, or other studies recommended by the ENGINEER.
4. Record property surveys, detailed descriptions of sites, maps, drawings, or estimates related thereto; assistance in negotiating for land and easement rights.
5. Necessary data and filing maps for storm water discharge permits, water rights, adjudication, and litigation.
6. Redesigns not initiated by the ENGINEER after final Plans and Specifications have been approved by the OWNER, except redesigns to reduce the project cost to within the funds available.
7. Appearances before courts or boards on matters of litigation or hearings related to the project and providing services as an expert witness in connection with any public hearing, arbitration proceeding, or the proceedings of a court of record.
8. Preparation of Environmental Assessments or Environmental Impact Statement (E.I.S.).
9. Performance of detailed staking necessary for construction of the project in excess of the control staking set forth in Section A-12.
10. Providing consultation concerning replacement of any work damaged by fire or other cause during construction, and furnishing professional services of the type set forth as previously mentioned in this Agreement as may be required in connection with the replacement of such work.
12. Providing professional services made necessary by the default of the Contractor in the Construction Contract.
13. Providing construction engineering and inspection services after the construction contract time has been exceeded.

Unless identified as included in the proposed scope of work herein, payment for the services specified in this Section D shall be as agreed in writing prior to commencement of the work. The ENGINEER will render to OWNER for such services an itemized bill, once each month, for compensation for services performed hereunder during such period, the same to be due and payable by OWNER to the ENGINEER within 30 days.

SECTION E - OWNER'S RESPONSIBILITIES

1. The OWNER shall provide full information regarding his requirements for the project.
2. The OWNER shall designate, when necessary, a representative authorized to act in his behalf with respect to the project. The OWNER or his representative shall examine documents submitted by the ENGINEER and shall render decisions pertaining thereto promptly, to avoid unreasonable delay in the progress of the ENGINEER'S work.
3. The OWNER shall furnish all pertinent restrictions, land-owner agreements, inspections and reports as required by law or the Contract Documents, and which may impact the design.
4. The OWNER shall furnish such legal, accounting and insurance counseling services as may be necessary for the project, and such auditing services as it may require to ascertain how or for what purposes the Contractor has used the moneys paid to him under the Construction Contract.
5. If the OWNER observes or otherwise becomes aware of any fault or defect in the project or non-conformance with the Contract Documents, it shall give prompt oral notice with written confirmation thereof to the ENGINEER.
6. The OWNER shall furnish required information as expeditiously as necessary for the orderly progress of the ENGINEER'S work.

SECTION F - SPECIAL PROVISIONS

The following is agreed to by both parties:

1. That the OWNER reserves the right to request replacement of any Resident Inspector(s) furnished by the ENGINEER or to furnish the Resident Inspector(s) from the OWNER'S own forces, subject to the approval of the ENGINEER regarding the qualifications of the Resident Inspector(s). If the OWNER furnishes the Resident Inspector(s), the OWNER agrees that the Resident Inspector(s) will be under the direction and supervision of the ENGINEER.
2. That the OWNER shall pay for advertisement for bids, building or other permits, licenses, technical review fees, Public Works Contract Fees, etc., as may be required by local, State or Federal authorities, and shall secure the necessary land dedications and rights-of-way.
3. The ENGINEER will endeavor to comply with all applicable State, Federal and local laws.
4. That insofar as the work under this Agreement may require, the OWNER shall furnish the ENGINEER all existing maps, field survey data, grades and lines of streets, pavements, and boundaries, rights-of-way, and other surveys presently available, which will be returned upon project completion. ENGINEER will provide the OWNER a copy of survey notes establishing bench marks and location of improvements.
5. That if the engineering work covered in this Agreement has not been completed on or after the

EXHIBIT 'A'

expiration of an Eighteen (18) month period from the date of execution of this Agreement, the OWNER or ENGINEER may, at the option of either, on written notice, request a renegotiation of Sections B, C, and D (providing for the compensation to be paid the ENGINEER for services rendered) to allow for changes in the cost of services. Such new schedule of compensation is to apply only to work performed by the ENGINEER after delivery date of such written notice.

6. That this Agreement is to be binding on the heirs, successors and assigns of the parties hereto and is not to be assigned by either party without first obtaining the written consent of the other. At least fifteen (15) days shall be allowed for such consent.
7. Attorney's fees: In the event a suit, arbitration or other legal action is required by either the OWNER or the ENGINEER to enforce any provision of this Agreement, the prevailing parties shall be entitled to all reasonable costs and reasonable attorney's fees upon litigation or upon appeal.
8. Termination
 - a. This Agreement may be terminated in whole or in part in writing by either party in the event of substantial failure by the other party to fulfill its obligations under this Agreement through no fault of the terminating party, provided that no termination may be effected unless the other party is given (1) not less than ten (10) calendar days' written notice (delivered by certified mail, return receipt requested) of intent to terminate, and (2) an opportunity for consultation with the terminating party prior to termination.
 - b. The Agreement may be terminated in whole or in part in writing by the OWNER for its convenience, provided that the ENGINEER is given (1) not less than ten (10) calendar days' written notice, (delivered by certified mail, return receipt requested) of intent to terminate, and (2) the opportunity for consultation with the OWNER prior to termination.
 - c. If termination for default is effected by the OWNER, OWNER will pay ENGINEER for services completed at the date termination; no amount shall be allowed for anticipated profit on unperformed services or other work, and any payment due to the ENGINEER at the time of termination may be adjusted to cover any additional costs to the OWNER because of the ENGINEER'S default. If termination for default is effected by the ENGINEER, or if OWNER terminates for convenience, OWNER will pay ENGINEER for services completed at the date of termination and include a reasonable profit for services or other work performed.
 - d. Upon receipt of a termination action under paragraphs a. or b. above, the ENGINEER shall (1) promptly discontinue all affected work (unless the notice directs otherwise), and (2) deliver or otherwise make available to the OWNER reproducible data, drawings, specifications, reports, estimates, summaries and such other information and materials as may have been accumulated by the ENGINEER in performing this Agreement whether completed or in process.
 - e. Upon termination under paragraphs a. or b. above, the OWNER may take over the work and may award another party a contract to complete the work under this Agreement.
 - f. If, after termination for failure of the ENGINEER to fulfill contractual obligations, it is

EXHIBIT 'A'

determined that the ENGINEER had not failed to fulfill contractual obligations, the termination shall be deemed to have been for the convenience of the OWNER. In such event, adjustment of the Agreement price shall be made as provided in paragraph c. of this clause.

9. The ENGINEER agrees to hold harmless and indemnify the OWNER against all claims, damages, losses and costs, arising out of the negligent performances or willful misconduct in providing engineering services under this Agreement. OWNER may make claim under applicable law against ENGINEER or ENGINEER'S insurance carriers for any loss, damage or cost arising out of ENGINEER'S negligent performance or willful misconduct, if applicable, of services under this Agreement.
10. The ENGINEER agrees to acquire and maintain for the duration of this Agreement, Professional Liability Insurance in the nominal amount of \$1,000,000. The ENGINEER further agrees to obtain and maintain, at the ENGINEER'S expense, such insurance as will protect the ENGINEER from claims under the Worker's Compensation Act and such comprehensive general liability insurance as will protect the OWNER and the ENGINEER from all claims for bodily injury, death, or property damage which may arise from the performance by the ENGINEER or by the ENGINEER'S employees of the ENGINEER'S functions and services required under this Agreement.
11. The ENGINEER will not discriminate against any employee or applicant for employment because of race, color, religion, sex or national origin. The ENGINEER will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin, such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; lay off or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.
12. ENGINEER covenants that he presently has no interest and shall not acquire interest, direct or indirect, which would conflict in any manner or degree with the performance of his services under this Agreement. Any interest on the part of the ENGINEER or his employees must be disclosed to the OWNER.
13. INDEPENDENT CONTRACTOR. It is agreed that ENGINEER is providing the services hereunder as an independent contractor and not as an employee of OWNER.

OWNER shall have no right to control the manner of the performance of the services, but may place restrictions on ENGINEER relating to use of OWNERS premises. As an independent contractor, ENGINEER shall not be eligible to receive benefits otherwise provided to employees of the OWNER.

14. The records and documents with respect to all matters covered by the Agreement shall be subject at all times to inspection, review or audit by the OWNER, County, Federal or State officials so authorized by law during the performance of this contract. Required records shall be retained for a period of three (3) years after termination of this Agreement
15. No member or delegate to the Congress of the United States and no City Official shall be admitted to any share or part of this Agreement or to any benefit that may arise hereunder.

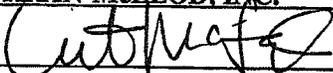

EXHIBIT 'A'

16. This CONTRACT shall be construed according to the laws of the State of Oregon. Any litigation between the OWNER and the ENGINEER or out of work performed under this CONTRACT shall occur, if in the state courts, in the Clackamas County Court having jurisdiction thereof, and if in the federal courts, in the United States District Court for the District of Oregon.
17. This Agreement, including Exhibits A and B, represents the entire integrated agreement between the OWNER and the ENGINEER and supersedes all prior negotiations, representations or agreements, either written or oral. This Agreement may be amended only by written instrument signed by both the OWNER and ENGINEER.

IN WITNESS WHEREOF, the parties hereto have executed, or caused to be executed by their duly authorized officials, this Agreement in duplicate on the respective dates indicated below.
