

Slurry Seals

- **What is a slurry seal?**

Slurry seals are a preventative maintenance procedure that involves spreading a thin layer of asphalt emulsion and fine sands/aggregates over the surface of the street. Like applying paint to the side of your house, a slurry seal/micro-surfacing will fill in small voids and fine cracks and further protect the street from water damage. It can also improve the ability of your car to grip the roadway.

- **If the road is closed, what happens if there is an emergency?**

Emergency vehicles will be accommodated at all times. We do notify 911 daily of the closures. This allows 911 to advise emergency services so that they can avoid the closures if possible. If it is necessary to travel over the uncured slurry seal emergency services will be allowed to do so.

- **The slurry/micro is scheduled for my garbage day, should I put my garbage out?**

Yes, but if possible, please place it out the night before in order to ensure pick up. We attempt to schedule around garbage days however sometimes it is not possible. We work with garbage service providers directly and generally providers will collect garbage on impacted streets first. This may make your pick up earlier than usual.

- **What about mail service?**

Mail service should continue as usual. As with the garbage service providers, the Post Office is notified of the closures so that they can plan their mail delivery accordingly.

- **Where is my vehicle?**

If you left your vehicle on the roadway on the day of work and No Parking signs have been posted, it was likely towed to a storage facility per Canby Municipal Code 10.12.020. You can contact the **Canby Police Department at (503) 266-1104 or Non-Emergency Dispatch 503-655-8211** to help locate your vehicle. The cost for the tow and storage will be the responsibility of the vehicle owner. The City will make every effort to locate the owner prior to towing a vehicle. If you will be out of town between **August 1st and August 31st**, please store all of your vehicles on your property in your absence to ensure your vehicles are not towed.
