## **CAT needs your ideas!**

We want input from all CAT riders and Canby residents and especially want to know what our Latino community members think; because we are updating the CAT Title VI Plan which focuses on removing barriers and conditions that prevent minority, low-income, limited English proficiency LEP, and other disadvantaged groups and persons from receiving access, participation and benefits from our services.

Please join us at the meeting to learn about the bus service currently offered in Canby and the plans for adding new services; and share your ideas with the CAT staff. Transportation to the meeting is available upon request. If you need a ride, please call 503-266-4022 by 5:00 pm on or before August 22nd to schedule your ride.
