PLANNING COMMISSION WORK SESSION

The Planning Commission will meet in a Work Session to discuss the following topic:

- **Housing Needs Analysis Update**, presented by Don Hardy, Planning Director.

Director Hardy gave an update on the Urban Growth Boundary (UGB) expansion, stating that the City and Department of Land Conservation and Development (DLCDD) have agreed on the amount needed for the residential UGB expansion area. Hardy informed the Commission on the latest housing needs and residential UGB expansion needs expected over the next 20-years. A timeline was presented for the Housing Needs Analysis (HNA) along with refinements and continued discussion over housing affordability measures. Updated UGB sufficiency findings were shared including the overall UGB expected deficiency acreage for each development type. Preliminary recommendations were given by the consultant and staff recommending adoption of the updated HNA. If adopted, roughly 80.2 acres of

additional buildable land will be needed for housing. Finally, the next steps for housing efficiency measures were shared outlining upcoming City Council and Planning Commission meetings.

Deliberation:

Planning Staff and the Commission discussed the buildable lands analysis methodology that the State provides and utilizes. Hardy mentioned the estimated 80 acres of expansion implies that the majority of the vacant and partially vacant land in the City's current boundary will be developed in the next 20 years.
